

# INTRODUCTION

## FULL SERVICE INDUSTRIAL CONTRACTING

Established in 1947 Klip is a privately owned, multi-trade, full service industrial contractor. We offer a highly skilled workforce of engineers, estimators, planners, quality control personnel and buyers in our management team. Together with our performance-motivated field staff of pipe fitters, boiler-makers, maintenance mechanics and operating engineers, we provide a complete industrial mechanical service in the petrochemical, energy and industrial sectors.

Our fabrication facilities use state-of-the-art welding and fabrication techniques, which allow us to prefabricate piping, vessels, steel and modular assemblies in alloys ranging from carbon steel to titanium.

All fabrication is proudly performed in accordance with PED, ISO 9001 and VCA\*\* safety and quality standards.
